# University of Pennsylvania Orthopaedic Journal

## INSTRUCTIONS TO AUTHORS

**Editorial Philosophy:** The *University of Pennsylvania Orthopaedic Journal's* mission is to provide concise reviews of orthopaedic disorders, techniques, and treatments by experts in all disciplines of musculoskeletal care. As such, *UPOJ* will consider for publication original clinical or basic science research, review articles, periodically case reports, and technical or clinical tips. The authors are asked to clearly define and narrow the scope of their topic to a specific condition or technique. In doing so, the goal of providing useful, descriptive summaries can be achieved.

*Manuscripts are considered with the understanding that they have not been published previously elsewhere in print or electronic format, in entirety. A cover letter stating such must be submitted with the manuscript.*

All manuscript submissions and correspondence should be sent to: **Editor-in-Chief, UPOJ, Hospital of the University of Pennsylvania, Two Silverstein Pavilion, 3400 Spruce Street, Philadelphia, PA 19104. Telephone: (215) 662-3350; Facsimile: (215) 349-5928; E-mail: [upoj@mail.med.upenn.edu](mailto:upoj@mail.med.upenn.edu)**

**Editorial Review Process:** All submissions are sent to expert consultants with affiliations, either past or present, with the University of Pennsylvania Health System for peer review. The review process is blinded for both reviewers and authors.

**Manuscript Requirements:** Do not include author name(s) or institution(s) on text pages or figures. The author name(s) and institution(s) should appear only on the title page and submission letter. The original manuscript and two (2) copies complete with illustrations must be submitted (i.e. **three complete sets**).

Manuscripts are not to exceed 15 double spaced typewritten pages. A total length should be limited to approximately 4,000 words. Pages should be numbered consecutively throughout the entire manuscript. Each manuscript must contain the following elements: **Title, Abstract, Body, References, Tables, and Legends.**

- 1) **Title Page.** Two title pages are required. The first should include the title of the article, author name(s) and degree(s), institutional affiliation(s), and any acknowledgments. In addition, the name, address, telephone and facsimile numbers, and e-mail address of the corresponding author should be noted. The second title page should contain the title of the manuscript only.
- 2) **Abstract.** Include a one-paragraph abstract of approximately 150 words that concisely states the objective, findings, and conclusions of the article.

- 3) **Body.** The text of the article is usually but not necessarily divided into sections with the heading Introduction, Materials and Methods, Results, and Discussion & Conclusion.
- 4) **References.** Should follow the format utilized in the American edition of the *Journal of Bone and Joint Surgery*.
- 5) **Tables.** Tables should be one per page and numbered consecutively.
- 6) **Legends.** Must be included for all illustrations/figures submitted, listed in order and typed double-spaced.

### Illustrations:

- 1) Black and white glossy prints (5"x 7") of photographs. Give magnification of photomicrographs.
- 2) Original drawings or charts of professional quality. Color illustrations cannot be used unless they convey information not possible with ordinary black and white figures.

Number all illustrations and photographs consecutively as they appear in the text. Numbers should be placed on the back of photos with the title of the manuscript. Do not mount prints. Three (3) copies of each figure are required for the peer review process. Previously published or copyrighted material must be accompanied by a release for publication from the original source.

**Authorship:** It is to be clearly understood that each author has contributed in a meaningful way to the preparation of the manuscript, agrees with its content, and assumes full responsibility for the content of the manuscript.

**Manuscript on Disk:** In addition to the hardcopies, the manuscript should also be submitted on a 3.5" floppy diskette labeled with the article title and the name of the software used in its production. **IBM-PC/Windows compatible disk with MS Word format is preferred.**

---

### MANUSCRIPT CHECK LIST

(before submission)

- Cover letter
  - Original manuscript with two (2) copies (three total copies)
  - Two title pages with author name(s), etc., on first page only
  - References in *JBJS[Am]* format
  - Illustrations/figures (three copies)
  - Copy of permission to reprint previously published figures
  - 3.5" floppy diskette containing the article
-
