

Resident Life

The Department of Orthopaedic Surgery, with 42 residents, is one of the largest residencies in the country. It is also one of the most tightly knit group of residents anywhere in the country. The camaraderie among the residents, and between the residents and faculty, is unlike any department in the country. Starting at the top, with Dr. Lackman, the de-

partment has always maintained a work hard, play hard mentality. The faculty's open door policy also extends beyond the operating room, as residents and faculty can often be found together at a 76ers game, on the sidelines of a Penn football game, or on Dr. Lackman's boat in the summer.
